

Deal Status Report — September 30, 2026

Week of September 30, 2026 • Prepared by Grant Sapkin • For Kenny & Michael Motew

SCREENED — ACTIVE UNDERWRITING

4 DEALS

2801 W Logan Blvd — Logan Square

TOURING TODAY 10 AM

Stage: Screened | Value: \$4.0M | 14 units | Counterparty: Will Sprinkman

Headline: The week's most active file. 14-unit Logan Square walk-up — second walk-through this morning at 10 AM, then Grant firms the numbers off it. Kenny & Michael have already been through the building and Andrew has been running and re-reviewing the underwrite (last review 9/29). Note the initial screen flags it above our \$2.0M price ceiling with a DSCR around 1.05 (below the 1.20 floor); today's tour and refreshed numbers decide whether the in-place economics hold up or it's a pass unless the price moves.

TASK	STATUS	NOTES
Tour, then firm up numbers	In Progress	Walk-through 10 AM today (9/30); tighten the underwrite immediately after.

Recently completed: First tour with Will (9/23) Got Kenny & Michael through the building (9/24) Andrew ran & reviewed the numbers (9/29)

East Lincoln Park — 67-Unit Deconversion

GATING ON ACCESS

Stage: Screened | Value: ~\$15.0M (our basis) | 67 units | Counterparty: Matt Neistat

Headline: Our biggest active deal and still the one to land. 67-unit Lincoln Park building (near DePaul / Wiener Circle), a full-building condo deconversion sourced through Matt, who advises the ownership group after they took an unsolicited offer. Matt has been back with the owners on next steps; Andrew is running numbers again today and Grant follows up with Matt to pin down building access. Price talk stays wide — sellers float \$18.5–\$19.0M, Matt pegs ~\$17.0M, we underwrite from ~\$15.0M. Capex runs \$1.5–\$2.0M (~\$15K/unit) for electrical and galvanized plumbing on top of recent roof/masonry/elevator work; post-reno 1BRs pencil \$2,700–\$2,900. Getting inside is the gating item.

TASK	STATUS	NOTES
Andrew running numbers, then review	In Progress	Refresh the deconversion underwrite (due today, 9/30).
Follow up with Matt on access	Waiting	Owners still in discussion; nail down when we can get into the building.

Recently completed: Called Matt for a next-week walk-through date (9/25) Checked in — Matt is working it with the owners (9/28)

1006 S Michigan Ave — South Loop

PRICE NEGOTIATION

Stage: Screened | Value: \$7.75M ask (testing ~\$5.8M) | 49 units | Counterparty: —

Headline: 49-unit South Loop adaptive-reuse play that's turning into a basis question. After reviewing with Andrew and getting Kenny & Michael looped in, Grant is re-running it at ~\$5.8M and has already floated whether the owners would take roughly \$5M — well below the \$7.75M ask. Scale and location fit; the deal only works if we buy right, so this week is about firming the number and testing seller flexibility.

TASK	STATUS	NOTES
Firm up numbers at ~\$5.8M	In Progress	See what the deal looks like at a lower basis (due today, 9/30).

Recently completed: Andrew ran numbers, forwarded files, reviewed together (9/25–9/29) Tested owners on a ~\$5M purchase price (9/30)

515 N Dearborn St — River North

ADAPTIVE REUSE

Stage: Screened | Value: \$7.5M | Counterparty: Robert Baum

Headline: River North building under an adaptive-reuse lens. Scott's package is in hand and Andrew is finishing the underwrite, with the review due today. It sits on the edge on the initial read — the refreshed numbers tell us whether to push the seller on price or let it sit.

TASK	STATUS	NOTES
Andrew running numbers, then review	In Progress	Adaptive-reuse underwrite, review due today (9/30).
Recently completed: Ran as adaptive reuse on Scott's info (9/21) Andrew's first pass reviewed (9/29)		

LOI

0 DEALS

Nothing at LOI this week.

UNDER CONTRACT

0 DEALS

Nothing under contract this week.

HOLD

2 DEALS

3639 N Broadway — Wrigleyville Development Site

MODELING UPZONE

Stage: Hold | Value: \$5.0M | 24 units as-of-right (59-unit upzone case) | Counterparty: Steve Frishman

Headline: Wrigleyville development site at \$5.0M, held while we model the upside case. Base case is 24 units as-of-right; the denser scenario is 59 residential + 2 retail + 40 parking, which needs a zoning change. The upzone is the basis lever — at 59 units land runs ~\$85K/door vs ~\$208K/door at 24, moving basis from above our \$150K/door ceiling to comfortably under. Swing variable is entitlement risk/timeline on the rezone; construction cost/SF, exit cap on cost, and post-rezone reassessment are the core sensitivities.

TASK	STATUS	NOTES
Run both scenarios w/ Kenny & Michael	In Progress	24-unit as-of-right base vs 59-unit upzone case.
Gate the 59-unit case	Waiting	Does the entitlement timeline + cost still clear a 7%+ yield on cost?
Recently completed: Discussed with Ken (9/16)		

1312 W North Ave — Lincoln Park / West Town

HOLD

Stage: Hold | Value: \$1.15M | Counterparty: Michael Rourke

Headline: Got details from Michael and ran the numbers; on hold behind a competing buyer. Holding to see whether that deal falls through before spending more time — next check-in is 10/19.

TASK	STATUS	NOTES
Check in with Mike — did the deal fall through?	Waiting	Follow up 10/19.
Recently completed: Got details from Michael, ran numbers (9/21)		

PASSED THIS WEEK

4 DEALS

3935 W Diversey Ave (Logan Square, \$10.15M, 70 units — Joe Smazal) — ran the numbers in the new template; economics don't clear the box. Passed.
956-58 N Winchester Ave (West Town, \$5.5M, 16 units — Justin Ross) — ran initial numbers and got pricing guidance; doesn't pencil at ask. Passed.
1601-1609 W Superior St (West Town, \$2.5M, 54 units — David Kaplan) — pulled info from Kaplan; not a fit on the numbers. Passed.
1725 N Pulaski Rd (\$0.8M) — screened and passed this week.
