

Deal Status Report — July 29, 2026

Week of July 29, 2026 • Prepared by Grant Sapkin • For Kenny & Michael Motew

ACTIVE — MOVEMENT THIS WEEK

950-952 N Noble St

UNDER CONTRACT

Stage: Under Contract • targeting Purchase & Sale Agreement | Value: ~\$1.57M (\$261K/door) | 6 units | Counterparty: Wayne Caplan (SVN)

Headline: West Town greystone (five units) plus a renovated coach house, six units total, under contract at \$1,566,000. Rents sit well under market — the owner inherited the building about a year ago and never pushed them (a full-floor three-bedroom just leased at \$2,900, well below scope). The plan is a straight rent mark-to-market plus the vacant 2E rehab, not a heavy reposition. Basis lands at \$261K/door, the top of the existing-product band, and the verified under-market rent gap is what justifies paying through it.

Next step: Execute the Purchase & Sale Agreement and run full trailing-12-month and rent-roll verification during the contingency period.

1342 W Randolph St

NEW THIS WEEK

Stage: Screened | Value: ~\$15.3M | 23 units | Market: Fulton Market | Counterparty: Owner direct

Headline: A building Mo2 already manages — a 23-unit Fulton Market asset — is now in play as an off-market buy-back. We are working directly with ownership to acquire it, with an early screen around \$15.3M. The management relationship gives us inside knowledge of the rent roll and condition going in.

Next step: Advance the buy-back conversation with ownership and firm up screening economics.

RECENTLY CLOSED

222 S Morgan St

CLOSED 6/30

Stage: Closed Won | Value: ~\$13.8M all-in (\$209K/door) | 47 units | Counterparty: Aaron Anovitz

Headline: 47-unit office-to-residential adaptive reuse, closed June 30 (about a week past the 6/24 target). Construction basis of ~\$209K/door and \$351/SF held from screen all the way through closing. Capitalized with \$3.45M equity at a 75/25 limited-partner / general-partner split, with roughly \$863K of Mo2 general-partner equity. Every pre-close item — the Saratoga lease-termination amendment, tenant estoppels, and entity organizational documents — cleared.

Recently completed: ✓ Closed and funded ✓ Basis and per-SF cost held clean through diligence

2323 W Grand Ave

CLOSED

Stage: Closed Won | Value: ~\$17.8M all-in (\$301K/door, \$287/SF) | 53 units | Counterparty: Bogdan Popovych

Headline: 53-unit deal closed on the cheap-land thesis — \$1.8M land basis, ~\$301K/door and \$287/SF, all held to close. Both open watch items resolved: the rate landed where it needed to and investors came on board. The land basis was the entire thesis and it survived to closing.

Recently completed: ✓ Financing terms secured ✓ Equity committed ✓ Closed

PASSED THIS WEEK

PASSED

222 W Ontario St (River North office-to-residential, 55K SF, DX-7) — Held for the adaptive-reuse exception, but the listing came out “Subject to Offer” with no price, so acquisition basis could never be cleared without burning architect cycles first. Passed on basis discipline pending a real number. Broker: David Aloush / Frontline (Sloviss).

3639 N Broadway (Wrigleyville development site, \$5M, 24–59 units) — As-of-right at 24 units puts land basis around \$208K/door, over our ceiling; the denser 59-unit case would cut that to ~\$85K/door but requires a rezone (entitlement risk and timeline). Passed pending that upzone swing. Broker: Steve Frisch.

SCREENING / UNDERWRITE
224 N Desplaines St (Screened, ~\$26.5M, 87 units, Fulton Market development) — Returns clear easily on the underwrite (~7.5% yield on cost); the open question is capacity to execute at 87 units, above our comfort band.
1201 W Kinzie St (Screened, ~\$24.8M, 66 units, Fulton Market ground-up LP raise) — Land basis is exceptional (~\$31K/door); gated on entitlements — the industrial-corridor removal, rezone, and special use are still pending at the Chicago Plan Commission.
